Independent Auditor's Report on Review of Interim Financial Information

To the Board of Directors of Syntec Construction Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of Syntec Construction Public Company Limited and its subsidiaries, and of Syntec Construction Public Company Limited, respectively as at 30 June 2015, the related consolidated and separate statements of comprehensive income for the three-month and six-month periods then ended, and the related statements of changes in equity and cash flows for the six-month period then ended and condensed notes, respectively. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

Emphasis of Matter

Without qualifying my conclusion, I draw your attention to notes 2.1 and 3 to the financial statements describing the effect of the Company's adoption from 1 January 2015 of certain new accounting policies. The consolidated and separate statements of financial position as at 31 December 2014, which are included as comparative information, are components of the audited consolidated and separate financial statements as at 31 December 2014 after making the adjustments described in note 3 to the financial statements. Furthermore, the consolidated and separate statements of comprehensive income for the three-month and six-month period ended 30 June 2014, and the statements of changes in equity and cash flows for the six-month period ended 30 June 2014, which are included as comparative information, have also been adjusted as described in note 3 to the financial statements.

2 Basis of preparation of interim financial statements

2.1 Statement of compliance

The interim financial statements issued for Thai reporting purposes are prepared in the Thai language. This English translation of the interim financial statements has been prepared for the convenience of readers not conversant with the Thai language.

The interim financial statements are prepared on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 (revised 2014) Interim Financial Reporting; guidelines promulgated by the Federation of Accounting Professions (FAP); and related applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements are prepared to provide an update on the financial statements for the year ended 31 December 2014. The financial statements do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and the subsidiaries for the year ended 31 December 2014.

The accounting policies and methods of computation applied in these interim financial statements are consistent with those applied in the financial statement for the year ended 31 December 2014, except the Group / Company has adopted all new and revised TFRS that are effective for annual periods beginning on or after 1 January 2015. The adoption of these new and revised TFRS did not have any material effect on the accounting policies, methods of computation and financial performance or position of the Group / Company, except disclosed in note 3 to the interim financial statements.

2.2 Functional and presentation currency

The interim financial statements are prepared and presented in Thai Baht, which is the Group's / Company's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the financial statements to the nearest thousand/million unless otherwise stated.

2.3 Use of estimates and judgments

The preparation of interim financial statements in conformity with TFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these interim financial statements, the significant judgments made by management in applying the Group's / the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2014. Changes principally derive from the adoption of new and revised TFRS from 1 January 2015.

Information about areas of estimation of uncertainty and significant assumptions in applying accounting policies that have the most significant effect on the amount recognised in the interim financial statements is included in the following notes :-

- 2.4** The consolidated and separate financial statements for the three-month and six-month periods ended 30 June 2015 and 2014 included the investments and share of loss of investments in an associate, which had been accounted for by equity method amounted to Baht 0.01 million and Baht 0.01 million, and Baht 0.01 million, and Baht 0.02 million respectively, in the consolidated financial statements, based on financial statements of such associate, which had been reviewed by the other auditor. In addition, the Company had no obligation under the guarantee for such associate and an allowance for impairment of investments in the abovementioned associate was set up as at 30 June 2015 and 31 December 2014 in the amount of Baht 10 million and Baht 10 million, respectively, in the separate financial statements. Please also see note 13 to the financial statements. However, the value of the investment in the associate was not significant.

3 Change in accounting policy

Since 1 January 2015, consequent to the adoption of new and revised TFRS as set out in note 2.1 to the financial statements, the Group / Company has adopted the new and revised TFRS. Certain standards have no impact on the Group's / Company's financial statements and certain standards have a material impact on the Group's / Company's financial statements which are summarized as follows:

3.1 TAS 1 (revised 2014) Presentation of financial statements

From 1 January 2015, the Company and its subsidiaries have adopted Thai Accounting Standard No.1 (revised 2014) "Presentation of financial statements", which required entities to present items in "other comprehensive income" on the criteria whether the transactions will be able to be subsequently reclassified to profit or loss or not. The adoption of this standard impacts the presentation of the statement of comprehensive income. The Company and its subsidiaries have presented and reclassified the comparative financial information in accordance with the revised standard. The change does not impact to the operating result of the Company and its subsidiaries.

3.2 TAS 19 (revised 2014) Employee Benefits

This revised standard requires that the entity recognize actuarial gains and losses immediately in other comprehensive income while the existing standard allows the entity to recognize such gains and losses immediately in either profit or loss or other comprehensive income, or to recognize them gradually in profit or loss.

The Company and its subsidiaries have changed the recognition of actuarial gains and losses in the current period from an immediate recognition in profit or loss to an immediate recognition in other comprehensive income.

This standard has a material impact on the Group's / Company's financial statements as described in note 3.7 to the financial statements.

For the three-month and six-month periods ended 30 June 2015 (Unaudited)

3.3 TAS 28 (revised 2014) Joint Arrangements Investments in Associates and Joint Ventures and TFRS 11

- **TAS 28 (revised 2014) Investments in Associates and Joint Ventures**

TAS 28 (revised 2014) supersedes TAS 28 – Investments in Associates; TAS 31 – Interests in Joint Ventures – has been withdrawn. Note that the previous option under TAS 31 to proportionately consolidate the investee is no longer available. Any adjustments to the financial statements following a change of accounting policy in this regard have to be made retrospectively. TAS 28 (revised 2014) also defines the terms “joint arrangement” and “joint venture” as follows:

Joint arrangement – an arrangement of which two or more parties have joint control

Joint venture – a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

- **TFRS 11 Joint Arrangements**

This standard defines that a joint arrangement is a contractual arrangement where at least two parties agree to share control over the activities of the arrangement. Unanimous consent toward decisions about relevant activities between the parties sharing control is a requirement in order to meet the definition of joint control. Joint arrangements can be joint operations or joint ventures. The classification is principle based and depends on the parties’ exposure in relation to the arrangement. When the parties’ exposure to the arrangement only extends to the net assets of the arrangement, the arrangement is a joint venture. Joint operations have rights to assets and obligations for liabilities. Joint operations account for their rights to assets and obligations for liabilities. Joint ventures account for their interest by using the equity method of accounting. This standard may have an impact to the group when there is a new relevant investment.

The Board of Directors Meeting of the Company held on 22 April 2015, considered that SVK Joint venture and Syntec – Mivan Joint venture were defined as joint operations and accounted for by recognizing the shares of assets, liabilities, revenues and relating expenses based on proportionate consolidation. The Group has re-evaluated its involvement in its only joint arrangement. As a consequence, the Group has changed its accounting policy of two joint ventures from proportionate consolidation to the equity method.

Therefore, this standard has a material impact on recognition of the Group’s / Company’s assets, liabilities and total comprehensive income as described in note 3.7 to the financial statements.

Notes to the interim financial statements
For the three-month and six-month periods ended 30 June 2015 (Unaudited)

3.4 TFRS 10 Consolidated Financial Statements

TFRS 10 prescribes requirements for the preparation of consolidated financial statements and replaces the content of TAS 27 Consolidated and Separate Financial Statements dealing with consolidated financial statements. This standard changes the principles used in considering whether control exists. Under this standard, an investor is deemed to have control over an investee if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns, even if it holds less than half of the shares or voting rights. This important change requires the management to exercise a lot of judgement when reviewing whether the Company and its subsidiaries have control over investees and determining which entities have to be included in preparation of the consolidated financial statements.

The Company's board of directors and management confirms that a change of this standard has no any significant impact on the Company's and its subsidiaries' financial statements.

3.5 TFRS 12 Disclosure of Interests in Other Entities

This standard stipulates disclosures relating to an entity's interests in subsidiaries, joint arrangements and associates including structured entities, which are excluded in the consolidated financial statements.

This standard has no any significant impact on the financial statements of the Group / Company.

3.6 TFRS 13 Fair Value Measurement

This standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurement. Entities are to apply the guidance under this standard if they are required by other financial reporting standards to measure their assets or liabilities at fair value. The effects of the adoption of this standard are to be recognized prospectively.

This standard has no any significant impact on the Company's / Company's financial statements.

Syntec – Mivan Joint Venture

Syntec Construction Public Company Limited and Mivan (Thailand) Co., Ltd. entered into the initial joint venture agreement on 18 November 2005 to prepare the documents for bidding the Eua-Arthorn Housing Project of National Housing Authority. The proportionate ventures were as follows:-

Syntec Construction Public Company Limited	65 %
Mivan (Thailand) Co., Ltd. (“Related company”)	35 %

Syntec – Mivan Joint Venture had already finished its own construction and 3 projects amounted to 8,582 units were inspected by National Housing Authority. The retention for dilapidation of those projects was due in March 2012. As of 14 August 2015, the Company has been in the process of requesting the amount of retention from National Housing Authority and please see note 33 to the financial statements.

The above mentioned related company was insolvent and was sued by other creditors to be bankrupt. On 14 August 2015, the Central Bankruptcy Court ordered the related company to be under an absolute receivership.

Syntec – Mivan Joint Venture had suffered recurring and had significant deficit in ventures’ equity. In addition, Syntec – Mivan Joint Venture lacked of liquidity and ceased operation. These circumstances raise substantial doubt about the joint venture’s on the ability to continue as a going concern. However, the Company, Syntec - Mivan Joint Venture and a related company mutually agreed to enter into the memorandum to construct, modify and repair a construction project until complete. In addition, the above related company entered into an acknowledged debt agreement on liable debts. As at 30 June 2015 and 31 December 2014, the Company recognized the estimated loss under joint venture agreement amounted to Baht 66 million in the consolidated and separate financial statements, respectively as described in note 26 to the financial statements.
